

ELIZABETH
MACHINES CO

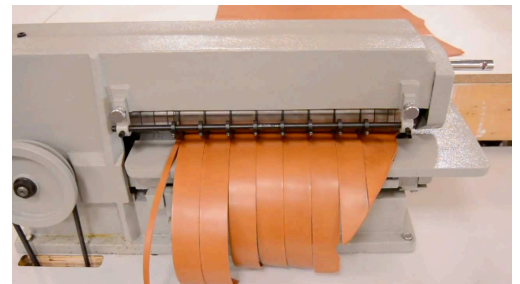

TK-18

Elizabeth TK-18 leather strap cutting machine is a great tool for producing accurate leather straps in any width up to 300mm.

Strong, powerfully made, the machine will feed and slit light to heavy weight leather into strips to your desired spacing by use of the assorted included spacing collars.

10 x blades are included in the machine as standard with additional blades available as extra's if required.

Specifications

Maximum Cutting Width: 300 mm
Speed: 1200 rpm
